

Available Services

- Oil & Propane Price Protection Plans**
 Sippin Energy provides four different Oil Price Protection Plans to help you control your heating fuel costs; a Price Cap Plan, Fixed Price Plan, Flex Price Plan and a Pre-Buy Plan.
- Total Care® Bundled Programs**
 Save money by bundling many of our most popular plans and services into a low monthly rate package!
- WatchGuard® 24 Hour Service Plans**
 Our WatchGuard® Silver & Bronze Plans include 24 hour repair service as well as an annual preventive maintenance visit. For the ultimate in home protection, choose our WatchGuard® Gold Plan
Comprehensive service plans are also available for...
 - Indirect Hot Water Heaters
 - Multi-Zone Coverage
 - Air Conditioning
 - Water Heaters
- Monthly budget payment plan**
 Our 12 Month budget plan is a great way to control your propane and heating fuel and service costs by providing consistent monthly payments that cover fuel and service plan costs.
- Tank Replacement Plan**
 This valuable plan provides protection for indoor oil tanks in the event of a tank failure. Great "peace of mind" for a modest cost.
- Oil & Propane Tank Installation & Removal**
 Sippin provides removal of old tanks as well as a variety of new tank installations.
- Heating Oil & Propane Tank Monitoring**
 Electronic tank monitoring is available to provide "worry free" protection against run-outs. (Ask a Sippin Representative for details)
- Customer Referral Program**
 Refer a friend or relative to Sippin Energy and earn \$50, ask a customer's representative for further details, or visit our website.
- A+ Rated By The Better Business Bureau**
 When your energy needs are provided by Sippin Energy Products, you can be confident that you will receive quality products and services backed by our legendary service reputation.

Exceeding Expectations Since 1919

The Sippin Energy facilities in Monroe, CT.

About Sippin Energy...

Established in 1919, Sippin Energy began by delivering fuel to neighboring farms. Since then, we have grown to serve thousands of homes and businesses throughout Southwestern Connecticut. Sippin Energy, now in its fourth family generation, continues to grow by providing great value. The Sippin family would like to thank you for choosing Sippin Energy for your home comfort needs.

Clean, Renewable, American Made

UltraBio™ High Performance Heating Fuel is a Sippin Energy exclusive that offers improved performance, increased reliability, and greater efficiency. **UltraBio™** bio-fuel is a blend* of 100% Soybean Bio-Fuel, and our low sulfur, high performance heating oil.

The combination...Unbeatable at any price!

UltraBio™ Key Features

- **UltraBio™** burns cleaner and more efficiently, saving you money by burning less fuel.
- **UltraBio™** is Environmentally safe, and free of sulfur which reduces air pollution.
- **UltraBio™** is a renewable resource, grown right here in the USA!
- **UltraBio™** is provided at No additional cost

Soybeans are the American grown crop used to make clean burning, renewable UltraBio®

The Sippin Energy bulk plant facility plays an important role in maintaining quality control as well as ensuring an uninterrupted supply of oil throughout the year. Our bulk plant is one of the most modern and well-maintained anywhere in Connecticut, and is always impeccably clean and free of water and sediment.

It's Everywhere You Need It To Be!
